

## Summary

An enthusiastic Developer with self-earned experience in both front-end and back-end development. Experienced with all stages of the development cycle for dynamic web projects. Skilled in JavaScript, TypeScript, CSS, and HTML, with expertise in MySQL for database management. Experienced in NextJS, React, React Native (expo), and Node.js for efficient framework and runtime development.

## Skill Highlights

- Development
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

## Experience

### **Full Stack Developer | Enlightors - 03/2023 - Present**

- Demonstrated strong problem-solving skills, tackling challenging technical issues and optimizing code for improved efficiency.
- Leveraged a variety of programming languages and technologies, including JavaScript, TypeScript, React, NextJS and Node.js, to deliver comprehensive web development solutions.
- Collaborated with cross-functional teams, including designers and other developers, to create visually appealing and user-friendly web solutions.
- Executed detailed programming tasks for both front-end and back-end components, ensuring the seamless functionality of public and internal websites.

### **Freelance Web Developer - 01/2022 - Present**

- Discuss project requirements with business owners and layout website and applications according to their needs.
- Develop project concepts and maintain optimal workflow.
- Complete detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.
- Carry out quality assurance tests to discover errors and optimize usability.

## Education

Diploma: Computer Science – 2021 – (Stage 4 /5) - **Gasha Institute**, Erbil

## Projects

### Hawranj Store

Hawranj Store is an e-commerce website based in Sulaymaniyah, Iraq. It specializes in selling computer-related hardware and building custom computer builds. I developed both the backend and frontend, as well as designing the UI/UX.

### RapidNet LTD – IOS MOBILE APP – ANDROID MOBILE APP

RapidNet is an Internet service provider (ISP) that delivers broadband services in Iraq/Erbil. My role involved designing a landing page for their website and developing a cross-platform mobile application. This application allows users to conveniently recharge and access information about their internet plans on both iOS and Android platforms.

### Kurditecture

Kurditecture is a dynamic website dedicated to disseminating valuable architectural insights and information. I took on the dual role of crafting both the backend and frontend components, ensuring a seamless user experience.

### GPS Plus

GPSPlus is a company that specializes in fleet management and tracking system services across Iraq, catering to both civilian and governmental needs. I was responsible for designing their landing page.
